1a — Looks like you're well on your way to a decent level of command line proficiency. Nicely presented, too, though you should get to know the HTML5 syntax better so that you markup will validate. I saw no problems with your DIY repository either. (|)

4d — No problems with looking up information and restating them. (+)

4e — Version control frequency and messages are appropriate for the work done. (+)

4f — Assignment done on time. (+)
